# Aura

Design: Giancarlo Tintori

Cerchi luminosi dalle linee essenziali a doppia emissione a sviluppo orizzontale declinati in versione verticale e a cascata grazie ai rosoni studiati per alimentare multilampade, il tutto abbinabile ad una elegante versione a parete disponibile in due misure.

Estremamente versatile può esistere in sospensioni singole o in composizioni a varie altezze a creare effetti scenografici.

Ideali per ambienti residenziali, uffici e spazi pubblici, realizzati con anelli in alluminio equipaggiati con LED SMD integrati, compatibili con interruttore dimmer e cavi regolabili in altezza.

**Emissione:** diretta, indiretta o entrambe le emissioni.

**Diffusori in gomma ai siliconi;** ottica diffondente opale ad alta trasmittanza.

**Cri:** 90

**Colore:** 4 colori disponibili bianco lucido RAL 9010, nero opaco RAL 9005, grigio RAL9006, oro satinato, Bronzo RAL8028.

**Comando:** con normale interruttore ON-OFF (2 fili + terra).  
DIM **DALI 2 PUSH** (4 fili + terra) .

**Temperatura di colore:** colorazione standard bianco 3000K a richiesta bianco caldo 2700K e bianco neutro 4000K.

**Ugr:** UGR ≤17.

Luminous circles with essential lines with double emission and horizontal development available in vertical and cascade versions thanks to the rosettes designed to power multiple lamps, all combined with an elegant wall version in two sizes.

Extremely versatile, it can exist in single suspensions or in compositions at various heights to create scenographic effects.

Ideal for residential environments, offices and public spaces, made with aluminum rings equipped with integrated SMD LEDs, compatible with dimmer switch and height-adjustable cables.

**Emission:** direct, indirect or both emissions.

**Silicone rubber diffusers;** opal diffusing optic with high transmittance.

**Cri:** 90

**Colour:** 5 colours available: Polished white RAL 9010, opal black RAL 9005, grey RAL9006, satin gold, Bronze RAL8028.

**Control:** with normal ON-OFF switch (2 wires + earth).  
DIM **DALI 2 PUSH** (4 wires + earth).

**Colour temperature:** standard color white 3000K on request warm white 2700K and neutral white 4000K.

**Ugr:** UGR ≤17.

Bluetooth DALI 2

## Ecosistema Bluetooth DALI2 in grado di controllare fino a 40 driver DALI.

Con rete wireless Bluetooth mesh 5.0 rende la comunicazione tra apparecchi molto più semplice senza un lungo cablaggio, che alla fine consente di risparmiare sui costi progetti (specialmente per progetti di aggiornamento retrofit).

La configurazione e la messa in servizio del dispositivo possono essere eseguite tramite app proprietaria Relco.

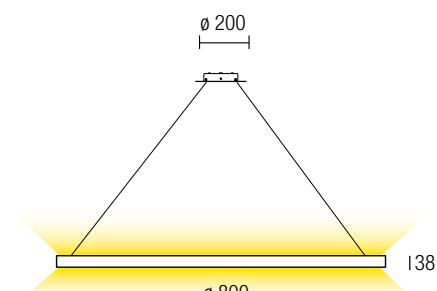

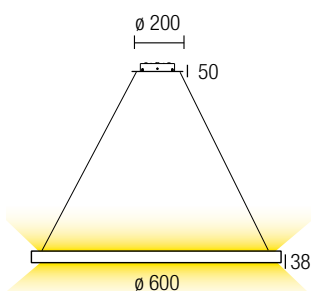

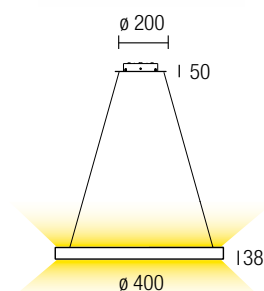

## Ecosystem Bluetooth DALI2 is able to control up to 40 LED drivers.

The Bluetooth mesh 5.0 wireless network greatly simplifies communication between the devices without long wires, ultimately saving on design costs (especially for retrofit update projects).

The device can be configured and put into service using the Relco proprietary app.

## Aura Ø800, Ø1200 con possibilità di accensioni separate.

Nuove versioni biemissione più performanti complete di driver e moduli LED ad alta efficienza, possono utilizzare accensioni separate per emissione indiretta verso l'alto, diretta verso il basso oppure in entrambe le direzioni. La sorgente luminosa è posizionata in modo da ottenere una luce discreta ed efficace senza la percezione dell'abbagliamento.

## Aura Ø800, Ø1200 with the possibility of separate ignitions.

New, more performing dual-emission versions complete with high-efficiency LED drivers and modules can use separate switching for indirect emission upwards, direct downwards or in both directions. The light source is positioned so as to obtain a discreet and effective light without the perception of glare.

# KIT multi lampada per Jodie S

Scelta diffusori | *Diffuser choice*

Dispositivo meccanico per la sospensione multipla, consente di sospendere tre o cinque apparecchi di illuminazione della serie Jodie S.

E' composto da un'attacco meccanico a plafone dotato di serracavi, doppi morsetti di connessione alla rete di alimentazione elettrica per accensioni separate ed una copertura in metallo verniciato.

**Non può essere utilizzato per la serie:  
JERI S - Murano**

*Mechanical device for multiple suspension, allows you to suspend three or five lighting fixtures from the Jodie S series.*

*It consists of a mechanical ceiling attachment equipped with cable clamps, double terminals for connection to the mains power supply for separate switching on and a painted metal cover.*

**Cannot be used for series:  
JERI S - Murano**

OGGETTO REALIZZATO  
CON VETRO  
PRODOTTO A  
MURANO  
MADE IN ITALY

Lampada da appoggio per interni con LED di potenza RGB, adatta per creare effetti dinamici di luce colorata. La sorgente è costituita da un disco di alluminio pressofuso che contiene i LED e da un diffusore in policarbonato satinato. Lampada da arredo adatta all'illuminazione diffusa di ambienti o come luce da lettura.

Corpo in vetro soffiato metà trasparente e metà verniciato in bianco per diffondere la luce. Bolle d'aria, striature, lievi imperfezioni superficiali o scoloriture sono caratteristiche tipiche di tutti i vetri di qualità, soffiati a bocca e di lavorazione artigianale. Esse non sono pertanto da considerarsi come difetti di fabbricazione, ma pregi di lavorazioni fatte a mano.

Free-standing lamp for interiors with RGB power LED, able to create dynamic coloured light effects. The light source consists of a pressure die-cast aluminium disk that contains the LEDs and a saint finished polycarbonate shade.

Lamp suitable for diffused light-ing of environments or a reading light or to create dynamic coloured light effects. Body in blown glass, half transparent and half in white finish for diffusing the light. Air bubbles, lines, slight surface imperfections or fading of the colour are typical of all quality glass blown by mouth and crafted by hand. They are not manufacturing defects but simple signs of hand-crafting.
